

CITY BIKE TOUR OF SALERNO WITH A NATIVE CYCLIST AS YOUR GUIDE

Join us for a **unique tour** providing you the opportunity to witness the **numerous historical periods of the city of Salerno**, considered to be one of the most progressive and modern cities in Southern Italy.

Our tour begins at **The Verdi Theatre and its beautiful botanical garden**, leading you through the characteristic areas of the old-town center. Visit the **St. Peter at Court Church, The Cathedral of St. Matthew, the former Monastery of San Benedetto**, the town square that was once **the city's Roman Amphitheatre**, and the **Minerva Gardens**, which are connected to one of **Europe's first Medical Universities** during the Middle Ages.

Cruise along the sea front of Salerno where the palm trees lead all the way down to **the new port**, where you can experience some of the modern architectural wonders of the City. This area has become a new cruise ship destination, thanks in part to the **architectural project designed by the world-famous Zaha Hadid**. Also visit the **Piazza della Libertà (The Square of Freedom) - Europe's largest town square - created by the Spanish Architect Bofil**.

Our tour then continues along the sea to **the Park of "Mercatello"** a green oasis frequented by the locals. Learn about the daily life in Salerno, as your guide provides you with a local's perspective and little known anecdotes about the many social aspects and contradictions of this continuously evolving city.

During our return to the center, **we will see yet another important example of modern architecture at the "Citadella Giudiziaria," created by the English architect David Chipperfield**, before passing by the city's ancient Medieval Aqueduct.

Duration: 3-4 hours including all stops. This itinerary can be customized upon request.

This Experience Includes:

- Bike rental
